[This is the seventh in a series of eight factual data articles on city government brought to you by the Association in the interest of better government.—Editor]

### COMMON INTEREST Your Government and Mine

By DANA P. BLAKE, Director

#### INTRODUCTION TO PLAN E—CITY MANAGER PLAN

In 1938 Plan E became one of the optional charter Plans offered by the Legislature, and which any city, except Boston, may adopt.

Localities differ and their differences are justly regarded by the Legislature when acting upon petitions for tailor-made charters. The number of inhabitants in the community, the territorial size and situation of the city, the pursuits and character of the people, their respective traditions and peculiar civic institutions, as well as their prospective growth and development, the social structure of the city, are all worthy of consideration in granting a public charter. There is no uniform pattern to be fitly applied to all communities. Citizens interested in the progress of their local government must keep them present as well.

Plan E is also a City Manager Plan, its unique feature being that all elective bodies (the Council and School Committee) are elected by the system of proportional representation. This article will point out the principal difference between Plan D and Plan E.

The drafters of the provisions of Plan E (omitting for the time being the PR feature) had the benefit of data compiled on the results of Plan D in actual operation over a period of some 30 years. The reader will note wherein the drafting committee concluded it was advisable to spell out certain limitations on authority, rather than to leave them open to the frailties of human nature. For instance, the prohibition against intermeddling or embarrassing in any way the work of the City Manager. Also that the Mayor's office should have more prestige, and provisions should be inserted to ward off the experience of Kansas City and Fall River, by freeing the office of the City Manager as much as possible from the impact of politics.

**CITY COUNCIL.** Instead of five members, including the mayor, who are elected at large in Plan D, the Council in Plan E consists of seven members in any city having seven wards or less at the time of adoption, and nine in those having more than seven wards. The Council in Plan E, which is elected under the P.R. method, elects the Mayor from its members.

As in Plan D, the Council is the governing body of the city and in control of all its affairs, except as to any limitations imposed by certain other provisions of the law, and except whatever comes within the authority given to the City Manager, and matters vested in the School Committee. Also, it exercises all the legislative powers.

#### MAYOR

The Mayor is the official head of the city, Chairman of the Council and of the School Committee. He has no power of veto but may vote the same as any other member of these bodies. He has no power of appointment, except over his own secretaries, or of the stenographers, clerks, telephone operators and messengers connected with his office. He may remove these appointees without a hearing and without making a statement of the cause of their removal. He is given some other duties which tend to build up his office, but which are still subject to the will of the Council.

The Council establishes the salary for its members not to exceed \$4000 each and \$1000 additional for the Mayor.

#### THE CITY MANAGER

As in Plan D, the City Manager is the chief administrative officer of the city, responsible for the administration of all departments, commissions, boards and offices of the city. Likewise, he is appointed on the basis of merit only; need not be a resident of the city or commonwealth when appointed; holds office during the council's pleasure; is the council's expert adviser and executor; attends meetings, makes recommendations, drafts the budget, directs the administration and sees that the budget and all other laws and ordinances are properly carried out. Likewise, he may make all appointments and removals in the departments, commissions, boards and offices of the city for whose administration he is responsible. And, he is given "all the powers, rights and duties, other than legislative, had, possessed or exercised, immediately prior to the adoption of the plan, by the Mayor, board of Aldermen, common council and all other boards, commissions and committees of the city and their members, severally or collectively, except such as conferred upon the school committee or are otherwise provided for thereby."

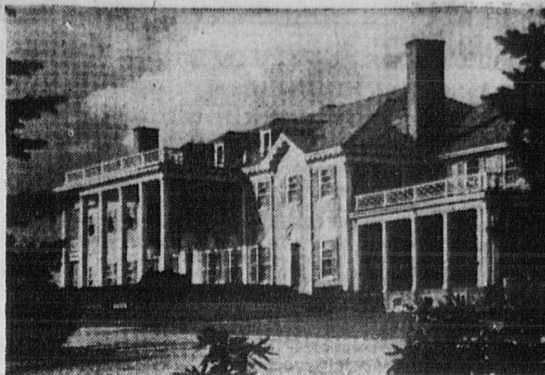

Likewise, the city manager may appoint and remove such officers and employees as the city council, with the advice of the city manager, may have determined are necessary for the proper administration of the services under his charge.

#### WARNING OFF POLITICAL INTERFERENCE

Recognizing that the City Manager must have a free hand in appointing the personnel of the departments for whose administration he is responsible, the City Council, its committees and members are prohibited from requesting the appointment or removal of any person therein, or having any dealings with or giving any orders to this personnel except through the city manager.

There is also a prohibition against any of the city personnel from soliciting or contributing for any political party or candidate for city office.

Violation of these provisions is punishable by a fine of up to \$500, or imprisonment up to 6 months, or both, and upon final (Continued on Page 2)

### Veterans' Service Dept. to Sponsor Housing Project

According to an announcement by Veterans' Service Commissioner Edmund T. Dugan a housing project is to be sponsored by the Newton Veterans Service Department, whereby veterans may obtain low-cost homes to be erected on land which now own or may acquire.

The homes of the pre-fabricated type, will be one story high, will contain four and one-half rooms, and will be so constructed that additional rooms can be built. They will contain a fireplace and will be heated by gas. The cost of the homes would be \$6,200.

Arrangements are being made by the city to supply these homes to veterans with two Newton men who represent the concern that builds them.

## Your Living Costs

The high cost of food—which recently touched a record level—still holds an important place in the headlines.

Reports of consumer resistance have come from all parts of the country. Government officials have been considering possible remedial measures. And retailers, whose prosperity depends upon a large and stable turnover, are definitely concerned.

The public should understand the position of the retailers in a matter such as this. He is literally caught in the middle—between high wholesale prices on the one hand, and consumer demand for lower prices on the other. He is without control over wages, the prices paid farmers, taxes, and everything else that enters into the final selling cost of food. What he can do is to hold down his own cost of operation to the limit, so that price increases may be as small and as few as possible. And that is exactly what nine out of ten retailers are doing.

A recent report of what happens to each dollar spent by the consumer in one of the country's principal food chains tells the story. Of each dollar sale, less than one solitary cent remained with the store as net profit. All the rest went for overhead and purchases of one kind or another—for buying goods, for rent, for salaries, for taxes, etc. This system's operating costs are the lowest consistent with running an efficient, attractive store. It is obvious, in other words, that the retailer is not the reason for high price of food.

If you like riding a rollercoaster try the dips in the newly reconstructed Centre street.

## Politics With Color

by P. W. C.

(The opinions expressed in this column are the writer's own, and do not necessarily reflect the views or policy of this newspaper.—Editor's Note.)

### G.O.P. Moonlight Sail

The annual moonlight sail sponsored by the Republican Club of Massachusetts, of which Douglas Dawson is still President, took place last Monday evening. Departing from custom, the Pilgrim Belle was used instead of the Steel Pier. Your columnist almost missed the boat because he had, for the moment forgotten the change in plans.

Newton Republicans have always been conspicuous for their absence on these annual sails; why I do not know. You always meet a lot of old friends and make new ones. You can dance and partake of any type of refreshments you care to or you can just sit and catch the cool sea breeze. This year a hundred disabled war veterans were the guests of the Republican Club. They appeared to enjoy themselves thoroughly.

To the best of my knowledge, the Newton delegation consisted of Rep. John S. Whittemore, who generously insisted on being my host for the evening, Aldermen Bauckman and Lockwood and the entire Mattson family, including the Alderman, and former Alderman Carl F. Schipper, Jr. We stayed in a huddle the first part of the evening and then deployed over the boat.

Among the prominent Brookline Republicans whom I chatted with in the course of the evening were Rep. and Mrs. Dick Allen, Rep. Hibbard Richter, Chairman of the Board of Assessors Jim Henderson and Mrs. Henderson,

former Rep. Everett M. Bowker, Jr., and Mrs. Bowker and Mr. and Mrs. Robert C. Cochran, Jr. Mr. Cochran is a recent President of the Young Republicans of Brookline and is reported to be interested in a seat on the Brookline Board of Selectmen. We could use quite a few Cochranes in Newton, especially in view of the fact that Mrs. Cochran is a talented singer.

Others noted by your columnist were Bill Mullins of the Herald, who was having a very grand time for himself and who told me more interesting political gossip than he has imparted for many months, Congressman Angier L. Goodwin of Melrose, (Eighth District), State Treasurer Laurence Curtis, Governor's Councilor Otis M. Whitney of Concord, Rep. Frederick B. Willis of Saugus, Speaker of the House of Representatives, who gave me some worthwhile dope, off the record, Senator Charles J. Innes and Mrs. Innes; the former is the floor-leader of the Senate, Colonel George A. Parker, a former Representative and widely-known public servant in Boston and all over the state for that matter, (founder of what has now become our State Police), Mr. Shea of Holyoke, a member of Governor Bradford's secretariat, and last, but not least Mrs. Julie Kirlin of Belmont, head of the ladies political organization with the very long name in Massachusetts. We can use a lot more publicity-minded ladies like Mrs. Kirlin in the political life of our state, especially when they are as gracious and personable as the Belmont lady.

Well, I suppose I stuck my chin out in attempting to list even a few of the prominent Republicans aboard. What surprised me, however, was the unexpected absence of the Governor, the Lt. Governor, the present Secretary of State, the Attorney General and Senator Saltonstall and Congressman Christian A. Herter. Undoubtedly both the Newton Senator and our own Congressman are still in Washington on official business. Mr. Herter, for the benefit of those few who may not know about it, is chairman of a Committee of Congressmen who are about to visit Europe to study at first hand the conditions under which the so-called Marshall plan will be obliged to operate. That is a tremendous assignment and we may well feel proud that our Congressman drew this post.

Interesting Contrast  
A few nights ago I read my monthly copy of "The National Legionnaire" and noted with some interest that the former Governor of Pennsylvania, the present Junior Senator from that state, Hon. Edward Martin, was to be presented with the Legion's Distinguished Service Medal, at the same time that Chief Justice Fred M. Vinson of the U. S. Supreme Court was to be awarded the medal. This will take place at the annual convention of the American Legion in New York on August 28.

Here is the other side of that

## Newton Taxpayers' Assn.—

(Continued from Page 1)

conviction, the offender is disqualified forever for eligibility to any office or position, elective or otherwise in the service of the city.

To further divorce the city managership administration from politics there is a provision that "no member of the city council during his term may be chosen as city manager, and no person who has within two years been elected to or served in any elective office in the city or in the county in which the city is located, or in the commonwealth shall be chosen as city manager."

Although the city manager serves at the will of the council, before he may be removed, if he so demands, he is entitled to receive a written statement of the reasons alleged for his removal, and he has the right to be heard publicly before a meeting of the city council prior to the final vote on the question of his removal.

Inasmuch as responsibility for the suspension or removal of the city manager is fixed in the city council, their decision is final.

The foregoing provisions do not appear in Plan D. They strongly suggest the determination to prevent a repetition of disgraceful occurrence both close to home and throughout the country.

### REBELLING AGAINST PLUNDER AND CORRUPTION

The City Manager Plan is in operation in approximately 582 cities (1944) throughout the United States. However, very few have the Proportional Representation system of elections. In fact, those that do may be counted on the fingers of your hands.

Major physical disasters brought in new governments to Galveston and Dayton. Grave moral disasters brought in what is our Plan D to Kansas City, and Plan E to Cincinnati and Cleveland, Ohio, and Cambridge, Massachusetts.

Cleveland adopted the City Manager Plan with Proportional Representation in 1921, but abandoned it in 1931. Cleveland started out on the wrong foot with its new Plan. It was adopted largely because the political boss, Maurice Maschke so ordered. Then Maschke picked out the City Manager, with whom later he got into a serious quarrel. This turned Maschke against the plan and he brought all of his forces to bear in order that it might be thrown out.

Inasmuch as the City Manager is supposed to be appointed by the City Council, acting independently, and the City Council is answerable to the people who put them in office and are responsible for the calibre of their councillors, once more we see wherein the human element enters and can and will destroy the best of plans. Notwithstanding the underlying principles of election under proportional representation, the Cleveland experiment shows that council elections can be controlled and sabotaged.

### CINCINNATI, OHIO

The disgrace of Cincinnati dated back to about 1896 with the regime of "Old Boy" Cox, who was succeeded by "Rud" Hynclia who ran the city for a period of years towards the end of his regime via long distance phone from New York while operating a string of burlesque houses. Municipal services were at very low ebb, conditions all around were scandalous. The City Manager Plan with PR was adopted in 1926, and soon the city could hold up its head once more.

The large cities offering a lucrative field have been the victims of wholesale plundering by the Bosses for their own personal aggrandizement. The Tweed Ring of New York carved its niche in the hall of infamy. Investigations disclosed coat hooks for the new court house cost \$600 each; 40 chairs and 3 tables were listed at \$175,729.60; plastering repairs in a new building for two days amounted to \$128,157.00; furniture and carpets for a single building were billed at \$5,691,144.26. Undoubtedly \$40.00 waste baskets look pale in this light.

The average person has come to associate the word "politicians" with graft and corruption. This is unfair to many sincere, able and hardworking citizens who devote much time to the affairs of

picture. The famous columnist and radio commentator, Drew Pearson, used his August 1 column in the Boston Traveler, and elsewhere, to give his thumbnail analysis and opinion of the twenty-two new U. S. Senators who functioned in the recently adjourned 80th Congress. Listen to Pearson's comment on Senator Edward Martin of Pennsylvania, who will shortly be honored by American Legion. "Edward Martin, Pennsylvania Republican—former Governor of Pennsylvania, given to haranguing on the Senate floor; Martin may have been a good Major General, but in the Senate he adds nothing to the prestige of the nation's second most powerful state."

Because I realize that Pearson is apt to be a bit tough on some public servants, as in the case of his recent uncalculated blast at Justice Harold H. Burton of the U. S. Supreme Court, I am going to make it my business to check up on Senator Martin and ascertain if he has been given a raw deal by Drew Pearson.

## NEWTON IN THE PAST

From the Files of The Newton Graphic

55 Years Ago, August 5, 1892

### NEWTON UPPER FALLS—

Officer Shaughnessy found a man on the platform under the Echo arch, Sunday, who had lost his hat and umbrella in the water and was about to go after them. O'Shaughnessy caught him just in time, and after securing assistance got him up the steps.

AUBURNDALE—There is a strong probability of Mr. J. McCamman of Newton opening a boot and shoe store in Plummer's block very soon. Negotiations are now pending.

WEST NEWTON—H. H. Goodnow sold his livery stable effects at auction yesterday. The collection comprised 13 horses, numerous carriages, hacks, robes, blankets, etc.

NEWTON LOWER FALLS—A number of hydrants here have been blown off the past two weeks on account of poor quality of city water of late. In some cases reported water has been unfit for drinking purposes.

### ADV. CREMATION.

The cremation of bodies is getting to be quite fashionable. If people would only see the necessity of cremating their wooden beds, however, it would be more to the point.

When you cremate yours, just come in and look at our Iron and Brass Beds and Hygienic Bed-

ding. We carry over 70 patterns of Beds, besides Springs, Pillows, and Mattresses of all kinds. MORRIS, MURCH & BUTLER 42 Summer St. (near Wash. St.) Boston.

WEST NEWTON—Miss Clara Sullen of Needham sang very impressively at the Baptist church last Sunday. She possesses a voice of great power, wide range and pure quality. These qualities together with her clear enunciation and true conception of the theme, make it a pleasure to listen to her.

25 Years Ago, August 4, 1922

The Board of Health has acted wisely in requesting the city government to require the restraining of all dogs in the city. Over 60 rabid dogs have been reported in Greater Boston with 11 in our own city and there have been also a number of cases taking the Pasteur treatment. The restraining order is a measure of precaution which every one will commend.

WEST NEWTON—The alarm from Box 36 at Commonwealth avenue and Washington streets last Friday morning was for a fire in the home of Fred W. Paul at 1668 Washington street. The blaze gave the firemen quite a tussle for a short while. The flames creeping stubbornly along the roof of the house. The fire was caused from sparks from the chimney. The building was owned by William C. Harvey of Allston.

their communities. Herein lies the reason why many able and qualified men refuse to come forward and offer their services. The prospect of having to run the gauntlet of men of the caliber referred to above, or crossing swords with them is not an appealing prospect.

The answer lies with the voting citizen. As pointed out previously, no matter what form of government a city may have, it will be no better than the men placed in charge to run it. The right form of government is essential, but the right caliber of men must be placed in charge to run it.

Next week's article will take up Proportional Representation. NOTE: ONCE A NEW PLAN HAS BEEN ADOPTED IT MUST REMAIN IN FORCE AT LEAST FOUR YEARS.

## Kiwanis Club

The speaker at the Kiwanis Club on Wednesday, who for obvious reasons remained anonymous, brought a startling message to the Club. He is a representative of "Alcoholics Anonymous," and told of the growth and success of that organization, and related his own experiences with alcohol.

"Alcoholics Anonymous," the speaker said, "is a self supporting organization. It does not seek or accept money or contributions from any source. 'A. A.' gives every assistance to a man suffering from alcoholism, but the victim must himself have the desire to be helped." Alcoholism is a greater curse than cancer in that cancer affects the rectum, while alcoholism affects not only the man, but also his family, his friends and all who associate with him. The speaker said that he took his first drink as he embarked for France in 1917 and became an alcoholic. After the war he went to college and found that he was 25 years ahead of his fellow students in experience. After attending college and receiving high marks for 3½ years, he decided to leave. He was urged by the faculty and his friends to stick it out the few remaining months to receive his degree. He was told he would live to regret it if he left. But because of his ego, created by alcohol, he did leave college. He is now about 60 years old and sincerely regrets his action.

He has gone from job to job, hitting the high spots as well as the low. "Alcoholics Anonymous" finally found him in a sanatorium, and he accepted their help in effecting a cure. He is today a successful business man.

"A. A." started with one group in this area a few years ago and has grown to 44 groups at the present time. It has assisted more than 50,000 victims of alcoholism. "Alcoholics Anonymous" operates without regard to a man's religion. It does insist that he believe in some power greater than himself.

**Notes**  
First Vice President Frank Battles presided in the absence of President Marcoux.

Mark Hopkins reported for the committee on the progress of the Kiwanis Circus to be held at Suffolk Downs August 18 to 24 inclusive. A car will be given away each night except that on the first night two cars will be given away. The "winner" of the first car drawn on the opening night will also receive: 750 gallons of gas, insurance and registration, \$800 in cash, two fitted sets of de luxe leather luggage, one for gentleman, and one for lady.

Other members of the committee are Frank Battles and Dr. Marcoux. Tickets may be obtained from any Kiwanis member.

Wilfred Chagnon was operated on last Monday at the Hahnemann Hospital, 1515 Commonwealth avenue, Boston. He is recovering satisfactorily.

Walter Hood, program director for August, announced that the speaker next week will be Dr. Ernest Morris of the Newton Health Dept. Dr. Morris will speak on the duties and activities of his department, which is reported to be one of the leading health departments in the country.

**THE WINNER OF THE GRAPHIC TROPHY IN THE MODEL PLANE BEAUTY CONTEST**—Won by Morgan Bertoni, shown holding the plane. It is a scale model of a P-38 and won because of its lines, finish and general appearance. (Photo by Emerson Halter)

## Many Contestants Win Prizes at Model Plane Meet Last Saturday

## Graphic Trophy Awarded to Bertoni For Model P-38

Nearly 200 model planes competed before two to three thousand spectators in the first U-Control Model Plane meet held at the Newton High School Athletic Field on Saturday under the rules of the Academy of Model Aeronautics, and sponsored by the Newton Chamber of Commerce, the Newton Post, American Legion, The Newton Graphic and Newton Transcript. Also cooperating was the Newton Recreation Department.

Ernest Babcock, Jr., of the famous Ernie Babcock father and son team of Morris Plain, New Jersey, set a new world speed record in Class II by flying his model 87 miles per hour. Last year the Babcock team won the Daily Mirror model plane meet in New York and were awarded the Aerocoupe in which they flew here for Saturday's meet.

Prizes donated by the sponsors of the meet included the model plane, six model motors, plane kits and trophies. The Newton Graphic Trophy was awarded to the plane having the best lines, finish and appearance and the Newton Transcript trophy was awarded in the speed contest. There was also a plane beauty contest. The prizes were presented by Roy S. Edwards, President of the Newton Chamber of Commerce. The contests were judged by officials of the Academy of Model Aeronautics, and the appearance contest judges were the editors of the two Newton newspapers and a representative of the American Legion.

Prizes were awarded as follows:

Class I—Won by Stuart L. Richmond of Worcester—52M. P.H.

## Water Pollution Near Bathhouse

To the Newton Graphic:

According to press reports the water of the Charles River flowing by the Newton Upper Falls bathhouse is under suspicion. The Board of Health is investigating.

If there be any pollution of the water the cause may be local. The Charles River banks from the Dedham line protecting Newton's watershed is controlled or owned outright by the city. It is to be presumed, therefore, that at least down to the pumping station, no or little pollution exists. As the bathhouse is less than half a mile from the pumping station (down stream) pollution arises in this vicinity on one, or maybe, both sides of the stream.

When the P.W.A. Oak Hill sewer was built (1934) from Elliot street to Needham street (later extended to Oak Hill) at a cost of about \$90,000, before it was put into operation it was found, report stated, to have developed leaks. The sewer was repaired at a cost of \$30,000 or thereabouts. So far as is known to date no further trouble has been reported.

As to what may be causing pollution whether possibly from the sewer—search for the reason seems to be narrowed to the pumping station and the bathhouse on the Upper Falls playground through which the sewer is built.

BERT LYTELL

Bert Lytell is one of our foremost actors who has appeared in numerous stage and screen hits. Some of his films are "To Have and To Hold" and Lubitsch's "Lady Windermere's Fan." the importance of having chest X-rays to make sure there is nothing wrong with their lungs. This literature points out that if one does get the disease, it is far better to know it as soon as possible so that treatment can be begun without delay. Each person X-rayed receives a report which is mailed to his home. If anything is found wrong with the chest or heart, the report is also sent to his family physician.

The chest X-ray is offered free of charge, the service being provided by the Massachusetts Department of Public Health, the Newton Health Department and the Newton Tuberculosis and Health Association.

### Moustache Cup Exhibit Now at Newtonville Library

Miss Doris Carley has a loan exhibit of twenty-two moustache cups, which are selections from her collection of four hundred and eighteen cups, on display at the Newtonville Branch of the Newton Public Library on Walnut street.

The moustache cup is an interesting reminder of the days when men were men and the handlebar moustache was in style as a badge of masculinity.

However, much like the neckties of today, apparently the selection of moustache cups was made by the ladies as evidenced by the ornamentation and graceful line and affectionate mottoes which appeared thereon and the gold and colorful embellishments.

Included with four of the cups are the photographs of the former owners showing various styles of hirsute adornment which establish beyond a doubt why they needed the cups.

As a matter of fact some moustache cups were the product of the finest makers in the world, Limoges, Meissen, Austria, Bavaria, English Egg Shell, Irish Belleek from Fermanagh County, Northern Ireland, and of course, China, and proudly bear the trade mark and the signatures of their makers and the artists who designed them.

Occupying the place of honor in the display is that rare collector's piece, a left-handed moustache cup, which legend states was the gift of an admirer to a returning Civil War veteran who lost his right arm in heroic battle.

# Newton Taxpayers Association, Inc. Views All Plans for City Government

[This is the eighth in a series of factual data articles on city government brought to you by the Association in the interest of better government.—Editor]

## COMMON INTEREST Your Government and Mine

By DANA P. BLAKE, Director

### PROPORTIONAL REPRESENTATION

WHAT IS PROPORTIONAL REPRESENTATION? The words are easy to rattle off, but the count plan is admittedly hard to explain.

#### BACKGROUND OF PROPORTIONAL REPRESENTATION

It is a general name applied to a principle or system of election. Credit for the English Proportional Representation plan is given to Thomas Hare, who published in 1857 a work entitled "The Machinery of Representation," followed by his more important work in 1859 "The Election of Representatives, Parliamentary and Municipal." The European countries use PR under the "list" system, not the Hare system, in both local as well as the national elections. In Italy it was abrogated under Fascist rule, and suspended in Germany by the Nazi regime in 1933. Its recent fate in the rest of the countries since the end of World War II cannot at this time be stated.

In this country it has been extensively, but rather fruitlessly agitated. It has found its way into very few home rule charters, and in each case it was with the City Manager Plan. Ashtabula the first in this country to adopt it in 1915 repealed it in 1929; Boulder adopted it in 1918, Kalamazoo in 1918, Sacramento 1921, Cleveland 1923 (abandoned in 1931), Cincinnati 1925, and Hamilton 1926. Court decisions ruled it out in Kalamazoo and Sacramento. Yonkers, N. Y., a town, has a movement afoot for its repeal, reports being that councillors elected under PR have been very unsatisfactory. New York City took on PR in 1937 but retained the Mayor-Council form of Government.

#### TYPES OF PR SYSTEMS

There are three major types of PR, differing in one respect only, i.e. in the distribution of so-called transfer votes. The type provided by our General Laws is known as the "Hare System" and as the "Single Transferable Vote System." The system has as its primary objective making the vote of as many of the voters as possible effective in the election of representatives for the voters in the municipal government. Therefore, the voter is given the opportunity, when he receives his ballot, of listing every candidate, or as many as he wishes, in the order in which he desires his vote to be used for the election of a candidate.

There is no doubt however, that once their vote is cast, only a few have the slightest idea how the count is carried on. Some time ago, a distinguished St. Louis attorney, a believer in proportional representation, declared, (though in a somewhat exaggerated manner) that when his twin daughters entered Radcliffe, the number of St. Louisans who understood the Hare plan was reduced 50%. And, as to the voter really understanding the course his ballot took, the Supreme Court of Michigan had this to say:

"An actuary, mathematically skilled in the application of the doctrines of chances to financial and other affairs, might work with confidence upon the possibilities of this system, but to the non-expert, it appears too intricate and tedious to be adopted for popular elections by the people." To the average elector the destiny of his vote is a mystery, however easy it may be for him to follow instructions in marking his ballot."

#### ACCOMPLISHMENTS

In several instances PR has been effective in breaking a corrupt stranglehold on the city. In Cincinnati, this was so and especially in breaking a solid block of 10,000 or more illiterate Negro votes which voted on strict orders of the Republican party in power. In New York it broke the hold of the Tammany group in the control of the Democrats.

We shall now come back to Newton and Proportional Representation under our Optional Charter Plan E.

#### FIRST: PRIOR TO ELECTION—GETTING ON THE BALLOT

Any registered voter qualified to vote for the candidate of the office he seeks, may be a candidate for that office, provided he files a statement of his candidacy at least 10 days before election, accompanied by a petition signed by not less than 50 or more than 100 registered voters requesting his name to be printed on the official ballot.

After nomination petitions are filed separate forms of ballot for the City Council and the School Committee are prepared. These are the two bodies elected by the voters. Ballots are printed in as many lots as there are candidates for election to any body. If 15 candidates, then 15 lots.

Immediately preceding the election the city clerk designates a central counting place to which the ballots having been cast are to be delivered and at which place they are to be publicly counted, and is required to draw by lot in the presence of the candidates (not later than the closing of the polls), the order in which the precincts of the City shall be counted. (Bear this in mind.)

**THE FAMILY SITS FOR A PORTRAIT**—The cast of "Ah, Wilderness!" which is being presented at the Wellesley Summer Theatre this week, sits for a portrait in the period of the play, 1906. All the costumes and jewelry are authentic, many having belonged to parents of the players. Bert Lytell, extreme right, is star of the Eugene O'Neill comedy, which will be shown nightly thru Saturday in Alumnae Hall on the Wellesley College campus.

## Fund—

(Continued from Page 1)

Hill and Newton nearly complete, and Newton Highlands, Upper Falls, and Newton Centre well on the way.

"About 65 per cent of our campaign organization will be solicitors in the residential division and the enrollment program for this group will start immediately after Labor Day. Approximately 18,000 families will be called upon by the residential workers, and the other divisions, advance gifts, mercantile, manufacturing, and municipal, will have another 5000 prospects for solicitation. Through this complete coverage by our loyal workers and through the continued generosity of our contributors, Newton will again this year, I am confident, continue to support the Red Feather agencies in Newton and Greater Boston which render such an essential and worthwhile service."

## Wellesley Theatre In Final Week

The Wellesley Summer Theatre is now in its last week of the season, with America's most distinguished actor, Bert Lytell, in Eugene O'Neill's masterpiece, "Ah, Wilderness!" to be shown thru Saturday night in Alumnae Hall on the Wellesley College campus. With "Ah, Wilderness!" the Wellesley Summer Theatre will bring to the public one of America's classics.

"Ah, Wilderness!" drew critical raves from the New York press when it was first produced with George M. Cohan in the leading role. The New York Times said, "Mr. O'Neill's excursion into nostalgic comedy has resulted in one of his best works." The New York World Telegram described it as "strong with the strength that is tenderness, warm with the ineffable sweetness of every day life."

Bert Lytell needs little introduction to American audiences, for he has been in the theatre for many years. One of the pioneers in the making of motion pictures, he nonetheless returned to Broadway and rose to new heights. He is perhaps best remembered for his production of "The First Legion" in which he starred. Playing in "Ah, Wilderness!" here at Wellesley will help Mr. Lytell realize an ambition which started in 1933 when

George Cohan was rehearsing in it. Lytell and Cohan were great friends and used to discuss the part of Nat Miller while walking. Lytell grew to love the part and has always wanted to play it. And now, 14 years later, he has the chance he has been so patiently awaiting.

Travel to Planets By Atomic Rockets

Travel to the planets by rockets using atomic power will be possible during our lifetime, according to Prof. Lyman Spitzer, Jr., of Yale University.

Mars, not the Moon, will be the first planet on which man will set foot, this because the Moon is dead and airless, and not much would be gained by landing there, Prof. Spitzer asserts.

## Three Private Ways Accepted

Petitions for Road Work Are Being Acted Upon As Soon as Possible

The Newton Street Department announced that construction on three private ways in Newton and their acceptance as public streets will begin immediately.

The streets, located in different parts of the city, are White Oak road, Waban, from Beacon street to Nesbrough road; Putnam street, West Newton, from Margin street to Temple street, and Claremont street, Newton, from Surrey road to Bellevue street. The White Oak road project will include a drain.

Street Commissioner Harold F. Young announced that bids for the contracts will be received separately and will be opened by him on Aug. 20. The contract plans are on file at City Hall at the office of City Engineer Willard S. Pratt.

There are numerous similar petitions on file at City Hall, but because of the pressure of work, few can be completed this year. City officials are proceeding with the projects in the order in which the petitions were filed and approved by the city government.

## 17 Newton High Vets Receive Diplomas

Friday marks the completion of the Veterans' Summer Session at Newton High School. It is expected that approximately 17 High School diplomas for successful completion of the course will be awarded.

A total of 87 veterans from this state, New Hampshire and Maine took advantage of this eight-week course. The final examinations held Wednesday and Thursday will determine those who will receive diplomas.

Charles H. Merendahl stated that he felt a minimum of 17 would receive diplomas.

A total of 261 students, 140 boys and 121 girls also attended the civilian summer school which closed last week.

### Alderman Joseph B. Jamieson Not to Run For Re-election

President Joseph B. Jamieson, of the Newton Board of Aldermen, has announced that he will not be a candidate for re-election as a member of the Board this year.

President Jamieson, who will retire after more than a decade of public service, is one of the most popular men in the Newton City Government and was urged to run for mayor. He represents Ward 6 as Alderman-at-large. He served as vice president before he was elected president after the retirement of President Charles E. Floyd.

Despite the urging of his friends that he enter the race for mayor this year, President Jamieson declined to do so and gave his support to the candidacy of Alderman Theodore R. Lockwood for mayor.

President Jamieson is engaged in the yarn business and his office is at 38 Chauncey street, Boston. He resided at 93 Homer street Newton Centre. He is a brother of Philip S. Jamieson who also served on the Board of Aldermen and is now chairman of the Trustees of the Horace Cousins Industrial Fund.

### Scouts Take Pack Trip on Long Trail, Vt.

Norumbega Council's Summer Program is further highlighted by a Pack Trip on the Long Trail in Vermont, which commenced Sunday, August 17th, under the leadership of Walter Tower, Sr., leader, and William Small, Norumbega's new Field Executive. The party entered the Long Trail at Blackinton, Mass.

Senior Scouts participating in the Pack Trip are Carl Fogelgren and Curt Livingston of Troop 22; Kent Collins, Troop 16; Walter Tower, Jr., Troop 70; John Sanroma, Troop 21, and Lenny Kent, Troop 7A.

The Pack Trip will follow the Long Trail (part of the Appalachian Trail system) from the Vt. Mass. line northward past Bennington and the Molly Stark Trail, to the vicinity of Manchester, Vt.

Many weeks of careful preparation, planning and training have taken place. The Long Trail Club of Vermont and the Appalachian Trail Club have been most helpful in supplying information and maps of the Trail.

Senior Scouts attending the hike will carry full equipment for the week's hike in their packs — using much dehydrated and concentrated foods. A special choice of hiking shoes has been made by members of the party, and the hikers are wearing their hiking shoes around Newton in order to break them in.

### UVO Seek Housing Authority for Newton

At a meeting of delegates of the United Veterans Organizations held at the War Memorial Building Tuesday evening it was unanimously voted to seek the creation of a housing authority here so that the city may avail itself of benefits of the recent State Housing Act.

Meanwhile the organization continued its discussion of the advisability of setting up pre-built houses on the land in Auburndale procured from the city by the Veterans' Housing Corporation. It is expected that several pre-built houses, erected on the owner's land at a cost of \$6700, will be set up in Newton and will be available for inspection by members of the UVO.

Chairman Joseph L. Walsh of the Veterans' Organization today called on all veterans to write to their aldermen urging the city government to set up the Housing Authority.

"Lack of housing is the fault of the veterans," Walsh said. "If they want action, they should not wait for someone else to carry the ball for them. Veterans should let their aldermen know that they want a Housing Authority (Continued on Page 3)

### Plan E Petition Not Filed; Referendum Will not be on ballot

The movement for a referendum on the question of adopting the Plan E form of government in Newton appeared today to have collapsed, at least as far as the ballot for the city election in November is concerned.

The deadline for filing petitions at City Hall for certification of signatures arrived Tuesday, but according to City Clerk Frank M. Grant, the petitions had not been filed at his office. Approximately 4300 signatures were needed to place the question on the ballot.

Carroll J. Hoffman, former alderman and leader in the movement for the proposed change in the form of government, could not be reached for an announcement as to the plans of the sponsors. Election officials said that the petitions would be valid for the city election two years from now, even if they are filed too late for the 1947 election.

The chief attraction for the backers of Plan E was its provision for a city manager. Early in the summer, in response to a request for a ruling, City Solicitor Joseph W. Bartlett issued a statement to the effect that the desired city manager form of government may be adopted without changing the basic form of government, but merely by a petition to the Legislature.

### Newton Schools Reopen Sept. 8

The opening day for all public schools in Newton has been set for Monday, September 8, 1947.

For pupils transferring from private schools to the tenth grade of the Newton High School placement tests will be given on Thursday, September 4, at 8:30 a.m. Registration for these tests should be made on Tuesday, September 2, or Wednesday, September 3, in the Guidance Office at the high school. Pupils are requested to bring their ninth grade school records.

Other pupils transferring from schools outside of Newton should register for admission to grades ten, eleven, or twelve on September 2, 3, 4, or 5, in the Guidance Office. Appointments for conferences regarding registration may be made with Miss Riley, Director of Student Personnel, by telephoning LASell 6267.

### Don't Miss! Freezing Demonstration

The Newton Nutrition Center in cooperation with the Red Cross Nutrition Committee will hold a Freezing Demonstration Thursday evening at 7:30 p.m., September 4, 1947 at the Red Cross Chapter House, 21 Foster Street, Newtonville.

Miss Edith West, Home Agent, Middlesex County Extension Service; Miss Marjorie Cantoni and Miss Marie Gervais, Nutritionists from the Newton Nutrition Center will demonstrate how to freeze meats, poultry, fruits, vegetables and baked products. Here is your opportunity to obtain the latest information on freezing foods.

For many foods, freezing preserves the fresh-like quality of the product. Freezing is easier, less time consuming and means that the average family can afford out-of-season specialties like strawberries, blueberries and others. You can be at ease when emergencies arise by serving a variety of frozen foods to your guests.

If you own a home-freezer, rent a locker, anticipate owning a locker or are just plain interested in what's new, COME — this meeting is for you!

### Aldermen Confirm Appointment Of Johnson as Recreation Comm.

### Dr. E. A. Marcoux, Newton Chairman Of S.A. Appeal

Announcement was made of the names of some of the leaders in Newton for The Salvation Army 1947-1948 Greater Boston Appeal for \$500,000 by Arthur G. Curren, Chairman of the Metropolitan Division of this annual appeal.

Dr. Ernest A. Marcoux, 34 Eldridge street, is Chairman; William M. Cahill of Newton-Waltham Bank and Trust Co., is Treasurer. Residential Chairman in charge of the Woman's Division is Mrs. Edward S. Colton, Jr., 1150 Walnut street. In making his announcement Mr. Curren stated that Newton, which comprises District VI of the Metropolitan Division, raised \$19,014.65 in last year's appeal and thus raised more than any other single town in the Metropolitan Division.

The money to be raised is for the support of the 30 institutions, neighborhood centers and departments of The Salvation Army in Greater Boston including "Wonderland" at Sharon. There have been 23 children from Newton at the famous Salvation Army fresh-air camp on the shores of Lake Massapog this year. Other Salvation Army activities conducted for the young of Greater Boston are The Settlement and Day Nursery and The South End Boys' Club. This year the Nursery has initiated something new and different. Children, most of whose parents are working during the day, have been transported into the refreshing comfort of the country at Puddingstone Lane, Newton Centre. Busses bring these children there every morning and bring them home every evening.

The South End Boys' Club is one of the outstanding of its type in the country. It was donated to The Salvation Army as a memorial to Charles Hayden, who, as a boy, sold newspapers on the spot at which the club is located. It has a membership of 1000 boys of 25 different nationalities and of every religious affiliation. There is always a waiting list of those anxious to join this organization. ### Wilson Retires After 20 Years of Service in City

In a closed ballot, the Board of Aldermen last Monday night confirmed Mayor Paul M. Goddard's appointment of C. Evan Johnson, Newton High school teacher-coach, to the position of commissioner of recreation by a vote of 11 to 5. Five members of the Board were absent.

The confirmation of Johnson came after petitions had been filed with the Mayor and the Board requesting the appointment to the position of John F. (Buck) Donahue, Recreation Department supervisor.

A graduate of Colby College, Johnson has been a teacher and coach of hockey at the high school for 11 years, except for the time spent in the armed services. He entered the Army Air Forces in May, 1942, with the rank of first lieutenant and attained the rank of major on his release. He served in the Administration Department of the Eighth Air Force in England and was awarded a Bronze Star for meritorious service. In addition to teaching and coaching hockey, he was an assistant football coach in Newton. He lives at 9 Proctor street, Newtonville, with his wife, Mrs. Jean Johnson.

Wilson is retiring after serving (Continued on Page 4)

## How Green Is The Garden City?

With apologies to Shakespeare, the current topic these days seems to be

"To change or not to change; that is the question:  
Whether 'tis nobler in the purse to suffer—  
WHAT?"

And THAT IS the question. 4300 registered voters in Newton are to be asked to sign a petition to place Plan E on the 1949 ballot. The voters are going to be urged to vote favorably on the adoption of Plan E—to cure Newton from what it suffers. Taxpayers are asked to gaze longingly at the admirable record made in Cambridge, where the tax rate has been reduced from \$46.50 to \$35.50. Everyone is asked to see how green the grass is there—and then to jump aboard the band wagon and root for Plan E for Newton. Adjoining cities likewise, but we are right now interested in Newton.

We ask, is Newton suffering from the same ills as Cambridge as of 1940? If the answer is yes, then Newton ought to be able to look forward to a \$15-\$20 tax rate within a few years. The sponsors of Plan E no doubt have made the necessary studies and are ready to show wherein the mismanagement, bungling or inefficient administration of the city's affairs is costing the taxpayer at least \$10.00 per thousand more than it ought. Further, that only through voting by proportional representation can this savings be effectuated.

In effect, the proponents of Plan E for Newton are telling the people that the reason for the success of our neighboring city of Cambridge is NOT due to the working of the City Manager Plan, which has produced excellent results in hundreds of cities, and NOT due to the able administration of its City Manager, Mr. Atkinson, BUT because the election of the council and school committee was by proportional representation. This conclusion is inescapable inasmuch as the distinguishing feature between the Manager Plans D and E, is the PR method of electing these bodies. Plan D is there for the offering, and a City Manager like Mr. Atkinson could be appointed and PAID \$20,000.00 per year, if the Council so decided.

The 1947 tax rates are appearing:

Arlington	\$42.80
Cambridge	35.50
Lowell	45.80
Brookline	32.00
Brookton	49.00
Braintree	37.60
Boston	46.50
Medford	42.00
Fall River	42.80
Quincy	33.00
Newton	32.00

The fact that Newton stands very well on the list does not necessarily mean that there is no room for improvement in the method of administration. We have no quarrel with the City Manager Plan, and are in favor of such a plan if the voters want to change. We do seriously question the merits of the proportional representation system insofar as Newton is concerned.

The tenants as well as landlords are taxpayers. We invite our readers to write us their views on the following points:

- where do the services furnished fall short?
  - do you favor a change in the form of Newton's government?
  - If so, what Plan do you think should be considered?
- These letters will be compiled and appear at a later date in a special column. We ought to receive at least 5000.

### City Election

From now on, at least until some weeks after our city election, I propose to devote at least one paragraph a week to the progress of the campaign and to various phases of our local government. The chief reason for this is the pronounced apathy of the electorate as a whole to the business of politics. I use the word business advisedly. It is a common complaint of a great many of our citizens that politicians run our city. By that I do not, of course, mean to imply that we have in our midst a lot of ward heelers and selfish bosses whose chief aim is to feather their own nests and get ahead in the political arena. What I mean is simply this. We have the usual number of men who make no bones about being interested in turning, the political wheel and keeping in very close touch with all governmental affairs. Perhaps it is not fair to label these men "politicians" for they are definitely more civic-minded and unselfish than their counterparts in some of our neighboring cities, such as Boston.

There is another group of men who have long been active and extremely influential in our local government. This group, curiously enough, has come in for far more criticism from certain sources than the larger group which likes to run for office, make speeches etc. It is composed of successful business and professional men of highest standing in the community. It is not an organized group at all. Its members are scattered throughout our seven wards. In one ward there may be only a handful of men; in other wards there may be as many as thirty or forty.

You ask, what does this group of citizens do? The answer is simple. A vacancy is about to occur in the Board of Aldermen, for example. A strong Alderman who has served to the apparent satisfaction of the vast majority in the ward in question insists on retiring, for business reasons, health or what have you. The citizens in that ward who have played an important part in securing the services of high-grade Aldermen in the past quite naturally hope to maintain the same high level when it comes to a replacement. Incidentally, (and this fact is frequently forgotten or deliberately overlooked) practically all the citizens I have been referring to are also leaders in such vital community activities as the Greater Boston Community Fund, the Newton Wellesley Hospital, the local chapter of the Red Cross and many, many other organizations. What is wrong with having men like this influential in the selection of our governmental officers and representatives?

Finally, it seems to me that there is only one other way in

which to select local candidates; namely, to have a caucus of some sort in each ward. Would this system work out? Would there be any kind of a turnout at such a caucus? Would you secure the attendance of many more than now show up at informal caucuses? Would any higher type of public servants be secured? Or, on the other hand, is there a bare possibility that the attendance would include a good many men who were personally interested in the results of the caucus and who would make earnest pleas in behalf of their own candidates? I am just wondering.

### Election Contests

The Mayoralty contest will get going at full speed immediately after Labor Day, Sept. 1. At this time, your columnist proposes to have his own say. I'll make it quite brief. What I have to say is entirely impersonal and is not to be construed as being for or against any specific candidate. However, if the shoe fits anybody, let him put it on.

In my opinion, there is one way and only one way in which to handle the situation which will confront the voters of Newton on November 4. Never mind whether there are only the present three candidates for Mayor whose names appear on the ballot or whether there are two or three new names which the voters have no knowledge of at the moment. The voter's problem is ridiculously simple. It is his or her duty to give thoughtful consideration to the various qualifications of each candidate and then, VOTE FOR THE BEST QUALIFIED MAN. It is as simple as that. Just think over the character, education, background, business or professional record, community service record AND experience in governmental affairs in Newton or elsewhere. Leave out all personalities and prejudices, petty or otherwise, and use the same judgment you would use in making a vital decision concerning the welfare of YOUR OWN FAMILY. If you cast your vote on that basis you cannot possibly go wrong.

Doesn't that make sense?

Well, we are going to have a number of Aldermanic contests which are sure to generate a good deal of heat and, I trust, some light as well. It is a safe bet that there will be a real fight in Wards 2, 3 and 6 at the very least. All these fights are strictly local and involve the election of a Ward Alderman. There also appears to be a contest on in Ward 4. The situation in Wards 1, 5 and 7 is not ironed out as yet. Watch for details each and every week.

## NEWTON IN THE PAST

From the Files of The Newton Graphic

55 Years Ago - August 19, 1892

NEWTON LOWER FALLS—

The Boyle O'Reilly Boys brass band, after giving a concert at the Woodland Park Hotel early Tuesday evening, stopped in front of Boyden block while returning home, and delivered a selection of 10 pieces before a large audience.

—

NONANTUM — The Sons of

Temperance lost about thirty-five dollars worth of regalia, etc., by the recent break of boys into the lower Athenium hall, the boys were before the court at West Newton, Monday last, and adjudged guilty but on account of their youth, they were placed on probation for six months. They are a set of boys that cause much trouble and loss, and it is hoped that if any further trouble is caused by them they will be sent to reform school.

—

NEWTONVILLE — The new

Street Railway will hardly be in operation before Sept. 1. The overhead wiring is nearly completed, but there has been some delay in getting the cars in shape, wiring, fitting the motors, etc. Upon the occasion of the opening of the new road, the business men of this place will unite in giving its projectors and officials a good send off.

—

Adv.—TO LET — House of 7

—

NEWTON CENTRE—One of

Mr. Ellis' horses with an ice cart took a spurt on Beacon street Monday morning, stirring up Mr. C. F. Smith's flower garden and leaving him more ice than he wanted for that day.

—

AUBURNDALE — Mr. W. P.

Thorn has greatly improved the interior of his drugstore by having the walls newly papered and the store fixtures throughout newly touched up. Several large gas burners have been put in which add much to its attractiveness in the evening.

—

50 Years Ago - August 20, 1897

NEWTON — The Boston &

Albany Railroad has adopted a

new style of uniform cap for its

employees, and some of the men

have begun to wear them. The

cap has two white cords on its

front, and is much prettier than

the plain blue caps the men have

been wearing. The company has

issued an order which says the

men must secure two of the new

caps a year. Heretofore the men

have been allowed to buy caps

when they thought they needed

them.

—

NEWTONVILLE — The im-

provements in and near the

square make this a very busy

place. The wide new sidewalk

in front of Central block will be

finished this week, and will add

much to the appearance of the

square, and when the eastern

half of the Walnut Street bridge

is open for passage and the widening

of Washington street com-

pleted, we may boast of one of

the finest looking wards in the

city.

—

WEST NEWTON — Plans for

the remodeling of the old Pierce

School building for a police sta-

tion and court room have now

been completed by the architect

employed by the city and will be

considered at a special meeting

of the committee on public prop-

erty to be called next week.

—

AUBURNDALE — There was

excitement the other day when

Sing Lee came for Joe in the

fruit store, corner of Ash and

Auburn streets with a revolver in

his hand and made threats to

shoot him on the spot. Joe took

to his heels and the celestial was

gathered in by the police, for his

unlicensed freedom. It all came

about through a watermelon,

which Joe sold the day before to

the Chinese proprietor and his

assistant. The watermelon was

taken to the laundry and eaten,

and as a result the Chinese assist-

ant was taken very ill, presuma-

bly from too much watermelon.

This so infuriated Sing Lee, who

may have thought the fruit

poisoned, that he started out the

next morning with a revolver,

vowing revenge on the Italian.

by writing to them or to me at 39 Prairie avenue, Auburndale. "A Housing Authority in Newton might save as much as \$40 per month in rent to a veteran, by loaning money at 1½ per cent and by waiving taxes for five years," Walsh asserted.

A representative of the manufacturers of the "Fire Safe GI Home," J. Harold Woods of Newton Centre, described the pre-built house which was set up at Silver Beach, Falmouth, at a cost of \$6700, exclusive of the lot. The total includes \$500 for a cellar, \$100 for sewer facilities and \$25 for other plumbing work. The bungalow-type house is of steel frame with metal casement windows and is heated by oil. The company is ready to deliver four houses immediately, but is unable to guarantee future delivery, though its production is increasing, according to its representative.

Observers at the meeting were Joseph B. Jamieson, president of the Board of Aldermen, and Theodore R. Lockwood, chairman of the Aldermanic Finance Committee, who asserted the veterans that the city government will continue to co-operate with them.

The UVO will meet early in September to take further action on the pre-built homes and on the Housing Authority, it was announced.

## Hospital Benefit Shop Grateful for Gifts and Service

The vacation months of July  
and August have, we hope, been  
pleasant ones for our Graphic  
readers who are friends of our  
Newton Wellesley Hospital. It  
has not been a cessation of du-  
ties for the manager of the Shop,  
Mrs. Francis Williams, or her  
corps of workers. Instead of the  
three half days a week which  
comprise the regular schedule,  
the shop has been open each  
Wednesday for both morning and  
afternoon, and in spite of the in-  
tense heat on most of those days,  
the customers have found com-  
mittees to serve them. These  
faithful helpers from both Welles-  
ley and the Newtons have done  
their part to keep this work done  
for the summer.

For all of our Hospital Aid  
members as well as our other  
friends there is still a chance for  
you to do your share. When the  
shop resumes its regular days,  
there will be mothers looking for  
school clothing for children of  
all ages; there will be some look-  
ing for sporting goods; as usual  
the demand for glass, china and  
silver will be made. Here is your  
chance to have your share in  
contributing to this worthy cause.  
Don't wait till it is cooler, but  
go over your clothing and china  
closets now, find what salable  
articles you can and if possible  
bring them to the shop. If too  
bulky, call Mrs. Raymond Per-  
kins, BIG 8123 by Tuesday and  
the truck will call for them on  
Wednesday morning.

The Benefit Shop thanks you in  
advance for the donations we are  
sure your conscience will urge  
you to send.

## Kiwanis Club Hears McGill Forecast Business Prospects

Herbert N. McGill, president-  
treasurer of the McGill Com-  
modity Service, Inc. Auburndale,  
and editor-in-chief of the com-  
modity publications at the Bab-  
son organization for several  
years, told the Newton Kiwanis  
Club, Wednesday, at the Y.M.C.  
A. of America's business and  
economic prospects of the fu-  
ture.

A graduate of Newton High  
School and Boston University,  
Mr. McGill has been a member  
of the New England Purchasing  
Agents Association for the past  
30 years. Identified with pur-  
chasing agents' associations  
throughout the United States and  
for the past 20 years, acting as  
one of the consultant econom-  
ists of the National Associa-  
tion of Purchasing Agents, his  
experience is long and varied.

Prices, he said, are up 50 per  
cent over 1939. Competition,  
growing fast, will bring prices  
down. Business failures are in-  
creasing and concerning the re-  
cent wage increases, he added,  
less than 50 per cent of Ameri-  
ca's workers participated. The  
difficulty of "getting by" because  
of this condition can be readily  
understood and is too, perhaps,  
the reason so many businesses,  
particularly the small enter-  
prises, are failing.

Inflation, Mr. McGill concluded,  
seems far fetched, but if this  
country is the victim of it, Com-  
munism will be the winner.  
With prices due to drop at least  
25 per cent during the next 12  
months, the only cancer in busi-  
ness, varied incomes, will be well  
on the way toward being cured.  
KIWANIS NOTES

According to First Vice Pres-  
ident Harold Pillsbury, "Many  
a man who earns a dollar or  
more at work, uses his leisure  
hours as though they weren't  
worth five cents a dozen. . ."  
Dr. F. H. Paul, Jr., celebrated  
another birthday August 20. . .  
Dr. John A. Conroy gave the  
Club the pleasure of meeting his  
brother, Rev. Gerard D. Conroy,  
C.M. of the Vincentian Fathers,  
Niagara Falls. . . Sgt. William  
Dovling, the guest of Chief Ve-  
duccio and Frank McMullins, guest  
of Walter Hood, attended the  
meeting. Benjamin Louis, for-  
mer president of the Newton Ki-  
wanis, now a member of Welles-  
ley Kiwanis, dropped in for a  
visit. Walter Hood announced  
the "Key Ticket Selling Girls"  
(Kiwanis Circus) will be guests  
of the club next week.

## Rotary Club

The speaker at the Rotary  
club's meeting at Brae Burn  
Country club last Monday was  
Clarence R. Mease, who for the  
past five years has been general  
secretary of the Newton Y.M.C.A.  
Fred Hawkins in presenting the  
speaker, sketched briefly some  
of Mease's accomplishments at  
the Y.M.C.A. during his adminis-  
tration.

The youth of today have a  
burning desire for a home, a job  
and peace for all. Mr. Mease told  
the members in a farewell ad-  
dress before leaving to take up  
his duties as general secretary  
of the Y.M.C.A. in Scranton, Pa.  
He asked for an attitude of  
understanding toward the youth  
of today, and for co-operation  
with the coming generation. "We  
must express all of our ideals  
without fear and share with  
them our experiences and try to  
keep up with the ever increasing  
tempo," Mr. Mease stated. "Don't  
just exist; don't see only the  
bad, but look to the horizon  
ahead," he concluded.

A letter was read from Bobby  
Doerr of the Red Sox, expressing  
his appreciation for the "Bobby  
Doerr Day" on Aug. 2, and  
thanking the Rotary club for  
helping to make it a success.

## Newton to Be Saluted On "Breakfast in The Surrey Room"

Friday, August 29  
WEEL, 9:00-9:30 a.m.

It is Newton Day on "Breakfast in the Surrey Room," this Friday, August 29, over WEEL at 9 a.m., and all Newtonites wishing to get in on the festivities should send in the coupon to be found in the WEEL advertisement elsewhere in this issue to get tickets. There are some valuable prizes to be had for the fun of it, for those taking part in the games, and residents of Newton will be given preference, when master-of-ceremonies, Hal Newell, selects participants.

The "Breakfast in the Surrey Room" broadcast originates in the new Surrey Room of the historic Old Touraine Hotel, Boylston and Tremont streets, Boston. It is the first of its kind in this area. It has been on the air since last January and has been gaining steadily in popularity, so that now it ranks right up with the network shows.

The program is tailored to New England tastes. Hal Newell, who lives in Braintree, has been a favorite with New England listeners for many years as sports-caster, and program narrator. Fred Flint, the accordionist, lives in Somerville, and Tommy Russell, the program's announcer, has just bought a house in Needham. Tommy was in the Army during the war, and considers

himself fortunate to have found a home in so attractive a town.

Tom Cahoun, the program's producer, resides in South Hingham, and Miss Surrey Room, Dorothy Ramose, whose authentic Gay Nineties costume accentuates the elegance and grace of that nostalgic decade, is a native of Brookline. All in all, the homelike and the romantic are cheerfully merged, and a gay time is had by everyone . . . to judge from the wave of laughter carried over the microphone each morning.

If you are old enough, or have enough children, or enough wedding anniversaries, the chances are that you will get an orchid, or corsage of exotic flowers. At any rate, all Newton will be listening on Friday, August 29, to "Breakfast in the Surrey Room," over WEEL, at 9 a.m.

## Volunteer Needs Of The Newton Community Council

The Volunteer Service Bureau of the Newton Community Council, a Red Feather Service, enlists your aid in filling two vital needs for volunteer personnel.

Do you have a few spare hours each week that you could devote to interesting and worthwhile community work? If you have, then the Volunteer Service Bureau urges you to donate this spare time to the Newton-Wellesley Hospital.

The Newton-Wellesley Hospital which stands ready to serve you in time of sickness needs your help. Volunteer as a Ward Helper. This is varied and interesting work. You may work either in wards or private floors or where needed most. You will arrange flowers, deliver messages, and prepare nourishment for the patients. The hours are from 9 a.m. to 1 p.m. and 7 p.m. to 10 p.m., Mondays through Fridays. There will be a two-hour orientation lecture on Sunday afternoons if you volunteer for the evening hours; morning volunteers are trained on the job.

The Newton-Wellesley Hospital also seeks a Central Supply Worker to assemble and dispense supplies.

If you have a few hours each week to contribute there is no better way in which you could be a good neighbor and serve all members of your community than by helping the Newton-Wellesley Hospital that needs your help so greatly.

For further information on these and other volunteer services call the Newton Community Council—LAsell 5121.

## Rare Type Blood Given for Emergency

On Saturday, August 23rd, a young man underwent a leg amputation at a Somerville hospital. A supply of one of the rare types of blood was needed to protect his life. Because of the scarcity of this particular type, the State Blood Bank was unable to take care of this emergency, and an appeal was made to the Boston Red Cross Chapter.

In its effort to fill this need, Boston called the Newton Chapter. In the Newton Blood Donor files was a donor who would meet the requirements, but the young man, an employee of Newton Raytheon, was rejected for physical reasons.

Raytheon employees have subscribed to an industrial blood bank which has been in existence for 10 years. This was the first industrial pre-typped blood bank in the world.

Mr. Edward Brown, who has been continuously interested in this bank and most cooperative with the Newton Red Cross Chapter in its drives for blood, was able to provide another donor from among Raytheon employees who could give the rare type needed.

## Clarence Conant Colby

Newton has just lost one of its very finest and most useful citizens, City Treasurer Clarence C. Colby. An Alderman from Ward 7 for many years, he was a Representative from the North side of the City in our State Legislature from 1941 - 1943 and then City Treasurer and Collector until his untimely passing on August 23.

This is neither the time nor the place for invidious comparisons; however, I can say with sincerity that there is no public servant in this city whom I have ever been privileged to know for a long period who has worked harder, more intelligently or more faithfully than the man whom we will always think of affectionately as "Cy" Colby. Other Aldermen have served longer terms or held higher positions in public life; none, however, have labored more unselfishly or have left more of an imprint of their personality on our city government.

In Newton, as elsewhere, we expect many things from those who govern us. We expect character, integrity, intelligence, energy and devotion to duty, as well as considerable understanding of the intricacies of governmental affairs. Cy Colby had all of these qualifications and a good many more. We can ill afford to lose a man of his calibre in these difficult days.

May I offer my deepest sympathy to those who are nearest and dearest to him and to his countless friends and admirers everywhere. They must be very, very proud of him.

## Fire Away!

During the next two minutes, even as you are reading this, a fire will break out in somebody's home. By the time 50 minutes have ticked away, someone will have burned to death. By the time the day is over, 760 homes will have been completely or partially damaged by fire.

These figures, prepared by the National Fire Protection Association, are grim and thought provoking and even more so is the fact that last year this country suffered a property loss by fire of close to six hundred million dollars while 10,400 Americans lost their lives as result of fires.

At the present appalling rate of burning, this country continues to rate the title of the Number One fire trap of the world. American homes are being attacked by fire at the rate of about 300,000 a year, and the estimated fire loss for 1947 is even greater.

What can be done about it? What can you do about it . . . Plenty!

Ninety percent of all fires can be prevented by exercise of common sense precautions and elimination of carelessness and neglect. And that's where you come in. It's up to you to take all possible precautions in your home or place of business, to use a little common sense and to remember that that fire "just down the street last week" might have been at your place.

Fire is no respecter of persons or time. It may not wait until "tomorrow" when you plan to do something about fire prevention, to remove those fire hazards from your home and, once they are removed, to see that no further hazards are allowed to present themselves. The precautions you take today can prevent tomorrow's fire, but the precautions put off till tomorrow won't put out today's fire.

Don't wait for Fire Prevention Week, early in October, to think about the hazards and cost of fire. Think and act now. October may be too late for the careless, the indifferent homeowner who casually flicks his or her cigarette ashes into the handiest receptacle, a waste basket, and tells himself, "It can't happen here."

## Labor Day

Labor Day, 1947, will have a significance that goes far beyond the picnics and the parades and the windy speeches that mark all national holidays.

American labor has come to a crossroads. On the one hand, it has achieved enormous economic and political power, and wages and working conditions unequalled throughout the world. On the other hand, as a result of certain grave abuses of that power, it has incurred the distrust of millions of Americans who are not "anti-labor" but are "anti-racketeer."

The Taft-Hartley measure marks the first decisive attempt to correct these abuses. But a law is not enough. Labor could evade and perhaps circumvent for a time the clear intent of Congress. It could continue to hamper production and disrupt the smooth functioning of our economic machine. It could continue to reduce the prestige of this country abroad and its security at home. Should it do that, it would eventually bring down the wrath of the people upon its head, and invite a really tough law that would drastically limit its rights and privileges.

If labor will cooperate with industry and the government to clean its own house and to contribute its full measure to the production of goods and services, it will earn and receive the respect and confidence of the country. It is a good sign that some leading labor leaders have recently said that worker productivity should be increased. One reason for today's high prices lies in the fact that output per man hour has gone down even as wages have gone up. Labor's basic interest lies in "real wages," which means wages measured in the light of purchasing power, not merely the number of dollars in the pay envelope. Labor Day will be a memorable date if it marks the start of a voluntary effort to resolve labor-management differences through honest collective action, and to stabilize the American economic system.

## How to pick a husband

No two girls will agree on all the qualities of an ideal husband. But every smart girl should put this one quality on her list: the ability to save money. Too many marriages which started well have been wrecked on arguments over money and bills.

Whether you're single, or married, or "soon-to-be," protect your future with a savings account in this friendly Mutual Savings Bank. All deposits are insured in full under State laws.

## Politics With Color

## Dwight D. Eisenhower

For many months your columnist has been refraining from talking about a potential dark-horse candidate for the Republican nomination for the Presidency in 1948. The reason for this has been that I did not want to jump the gun and do anything to distract attention from the leading contenders at the time. Messrs. Dewey, Taft and Stassen appear to be well out front and there are, as always at this juncture, a small-sized army of favorite son candidates, including our own U. S. Senator Leverett Saltonstall. Other prominent favorite sons are Senator Arthur H. Vandenberg of Michigan, Gov. Earl Warren of California, Senator Edward Martin of Pennsylvania. Also, we cannot afford to overlook Speaker of the House Joe Martin, who has recently been honored at a huge clam bake in his own Congressional district in this state, our Junior Senator Henry Cabot Lodge, and a number of others who have had less publicity to date. Speaker Martin has had enormous publicity on account of the fact that he will now succeed President Truman if the latter should unexpectedly drop out of the picture for one reason or another. In this connection, it might be pointed out that Speaker Martin has indicated, publicly, that he is no more interested in suddenly being catapulted into the White House than was our present Chief Executive.

Now, back to General Dwight D. Eisenhower and his place in the G.O.P. picture in 1948. The Republican old-guard, weakened but still powerful, appears to view the Eisenhower threat with considerable concern, to put it mildly. Here is a man who is a man and who cares little or nothing for ordinary politics. Should he be nominated and elected President he would undoubtedly be just as free and independent as Wendell Willkie would have been if he had made the grade and landed in the White House.

Readers of Life magazine, which devoted two full pages in their August 25 issue to General Ike, will understand why I use the term "threat" in connection with a possible Eisenhower candidacy. The General's chance would come if and when the G.O.P. convention became deadlocked and both Dewey and Taft had to be counted out. At that point, a stampede to Eisenhower would be just as possible as the stampede to Willkie in 1940.

But, wait a minute. Is the General really a Republican and would he accept the nomination?

Kansas Republicans are obviously of the opinion that their beloved General is a Republican. As to the second question, Life quotes Eisenhower as having made the following statement: "I haven't the effrontery to say I wouldn't be President."

## Plan E Loses

Rather to the surprise of quite a few well-informed people, the proponents of Plan E for Newton failed to make the grade this summer. August 19 was the deadline for filing the 4,300 signatures required to place the Plan E question on the ballot at the coming City election. On that date Mr. Grant, our City Clerk, had not received the necessary signatures. Plan E is, therefore, dead for at least two years.

What killed this movement? There were a number of factors. A terrific hot summer is no time to try to stir up anybody over political matters. Again, there were altogether too many prominent citizens who were either violently opposed to Plan E for Newton or else were waiting to be shown just why Newton needed Plan E. The proponents, who, incidentally, were not as efficiently organized as they might have been, appear to have failed to make out a good case for a radical change in our form of government. Furthermore, when our City Solicitor, Joseph W. Bartlett, issued a statement early in the summer that a City Manager could be installed in Newton WITHOUT changing our basic form of government, the props fell out from underneath the Plan E movement.

For my own part, I am not definitely hostile to the City Manager idea. I am, however, opposed to a full Plan E for Newton as matters stand today. This is one of the few times when I stand precisely where President Truman does; namely, I am from Missouri.

## The Johnson Appointment

One of the interesting features of the recent confirmation of the appointment of C. Evan Johnson as Recreation Commissioner was this: the vote for confirmation was 11 to 5, but there were five Aldermen absent. That, in itself is nothing very unusual, especially in the summer months. However, it makes it possible for the sponsors of the other candidate for the position, John F. (Buck) Donahue, to speculate as to what might have happened had all twenty-one Aldermen been present and voting. The vote might conceivably have been 11 to 10. That would have been a very small margin for a very important position.

There is one vital point which

the supporters of Donahue appear to have overlooked. It does not, of course, apply to all his supporters. The Board of Aldermen had before it one name and only one name. It had to either vote for or against Mr. Johnson, the official appointee. The only move the Donahue group could make was to try to persuade the various Aldermen to vote against Mr. Johnson. That would be quite a task under any circumstances, even with a very fine and well-qualified man like Mr. Donahue standing in the background of the whole picture.

One final word. In the future, would it not be possible to work out some scheme for taking soundings, so to speak, BEFORE important appointments come up for final consideration? It is true that Messrs. Johnson and Donahue are equally well qualified to fill this post, surely the general public has a right to feel that BOTH men are given equal consideration before the tentative appointment is made.

## Letter to the Editor

To the Editor of the Graphic Dear Sir:

The somewhat evasive attempt by P.W.C. (8-21-47) to cram the idea down the throats of the Graphic readers that the citizens of the City of Newton are not able to think for themselves and vote intelligently, nauseates me.

P.W.C. minimizes the number of people there are in this machine. He states "in one ward there may be only a handful of men; in other wards there may be as many as thirty or forty." Now suppose that there are forty in each ward, and we have seven wards, what divine right do these two hundred and eighty people have to pick the government for eighty thousand of us. P.W.C. certainly has little faith in the intelligence of eighty thousand people if he thinks that his small group of master minds are going to pick a city government in 1947.

P.W.C. goes on a little further and lays down his yard stick by which a Mayor is to be measured. If P.W.C., himself, will honestly measure each candidate by his own standards, he cannot fail to pick the name of Roy S. Edwards from the top of the list.

Very truly yours,  
WM. E. HALLIDAY, JR.

## NEWTON IN THE PAST

From the Files of The Newton Graphic

55 Years Ago—August 26, 1892  
NEWTON—No campaign flags are as yet displayed here or elsewhere in the city, far behind other surrounding cities and towns in that respect. There is a movement, however, on the part of a few of the more active Republicans of Wards One and Seven to organize a Harrison & Reid battalion.

NEWTONVILLE — Bowling cranks are beginning to get into form for the approaching season's tournaments. The Newton club alleys have been practically idle during the warm months but promise to be liberally patronized by members this winter.

NEWTON CENTRE — Mr. J. R. Leeson and his son are now at Moosehead Lake, where they expect to remain until the last of September. They caught 1600 trout the first four days of their stay, which broke the record at that famous fishing resort. Robert Leeson caught a 2½ pounder, one of the largest catches of the season.

NEWTON UPPER FALLS — Ellis street is still in the same condition it was last week and not a thing has been done by the highway department. It has been in dangerous condition now for two weeks. Winter street was badly washed two weeks ago and the hill is covered with washed out cobblestones. The Highway men are at work on Elliot street quite frequently, but it would suit more citizens if some other streets used fully as much were kept in proper condition. These streets are a disgrace, not only to Upper Falls alone but to the whole city. (If Harold Young had been Street Commissioner in 1892, this paragraph would not have appeared.—Editor.)

50 Years Ago—August 27, 1897  
NEWTON — Mounted Officer Compton had an exciting experience with a runaway horse on Hunnewell Hill about 6 o'clock last Saturday evening. The officer was riding down Washington street, when at Park street he passed a runaway horse, attached to a furniture wagon, and going in the opposite direction. The officer turned his horse about and followed up the hill. The other horse had a good start, but the officer finally overtook the animal at the corner of Hunnewell avenue. Here the officer with strenuous efforts brought it to a sudden stop. The wagon, which was later returned to its owner, was the property of a Boston firm.

This is a great year for floods and August has broken the record in that respect. Our subway comes in very handy in such a season, and makes a magnificent ditch to carry off the surplus water.

NONANTUM — The bicycle riding on California street, Sunday, has caused much annoyance to those living in that vicinity, but the practice has now been broken up through the efforts of Alderman Downs.

WEST NEWTON — Residents of this place are up in arms over the wholesale poisoning of cats.

## THE AMERICAN WAY

Susie: (Junior's cousin) Here's Uncle Bill and Junior back from the garden.

Jane: Oh, Junior, what a lovely basket of vegetables! Junior: Say, Mom, look at those beets and beet greens! Aren't they super? And there are a lot more to be picked!

Bill: Junior is some farmer! This basket is full of vegetables that Junior helped grow.

Jane: We just can't use all the tomatoes, string beans, beet greens and other stuff, John. I'll have to give some of it away.

Junior: May I bring some over to Nancy's mother next door? Jane: Yes, dear. Now let's see, here are some tomatoes—such beautiful red ones! I remember the nutritionist from the Newton Nutrition Center telling us that we can use tomatoes in place of oranges for our vitamin C especially.

Junior: Gee, Mom, we have so many good tasting tomatoes. Let's have some every day while they are in the garden.

Jane: Okay, Junior. Since Susie is going to be with us for dinner tonight, I think we'll have something a little festive for a

change. Will you bring in four nice large tomatoes? We're going to have a Stuffed Tomato Salad.

(Would you like Jane's recipe for Stuffed Tomatoes? Here it is! Try it tonight. Your family will welcome this cool, tasty and nutritious main dish!)

**Stuffed Tomato Salad**  
Select four medium sized ripe tomatoes. Cut tomatoes in quarters, leaving an uncut portion at the base so that quarters may be spread apart but will remain attached. Sprinkle with salt. Fill each tomato with about half a cup of the following salmon salad.

Salmon salad:  
1 cup flaked (pink or red) salmon  
1 cup diced celery or cucumber  
French dressing  
Salad dressing or mayonnaise

Mix the salmon and celery or cucumber; moisten with French dressing and seasonings; let stand in refrigerator for half an hour or more. Place each tomato on lettuce. Fill with salmon salad. Garnish with mayonnaise and stuffed olives, if you have them on hand.

Registrar King Urges  
Careful Driving  
Over Labor Day

During Memorial Day and Fourth of July weeks, our department made an extra effort to keep down accidents and deaths on the highways of the commonwealth. Our efforts and the cooperation we received from all enforcing officials and interested citizens gave Massachusetts on both occasions an exceptionally low fatality record. Labor Day week-end will again give us heavy highway traffic. Reckless, careless and speeding drivers must be checked and, as before, those driving under the influence of intoxicating liquor must be removed from behind the wheel. Vehicles in unsafe condition must be taken off the highway.

Our force of inspectors has been directed to set aside all other activities from August 28th to September 2nd, inclusive, to concentrate on enforcement. As Registrar of Motor Vehicles I call upon all citizens and organizations, motorists and pedestrians, to co-operate in order that we may eliminate highway tragedy during the coming holiday week-end.

During World War I he served as a captain attached to the Judge Advocate General's Department, and is at present honorary president of the Officers' Reserve of that department. He holds the rank of major in the U. S. Army Reserve Corps and while serving as a trial justice in Nuremberg will hold the rating of brigadier general.

For several years after World War I he served as an assistant district attorney under former district attorney Thomas C. O'Brien, and in 1924 resigned that post to return to private practice.

His appointment to the Massachusetts Superior Court was made by Governor Alvan T. Fuller, and since his appointment he has served in every county courthouse in the state, and is also recognized as an authority on military law.

**THE NEIGHBORLY SPIRIT..**

**MAKES FOR BETTER PARTY LINE TELEPHONE SERVICE**

Whether it's a matter of sharing garden plants over the back fence, or working together for better party line telephone service, the neighborly spirit makes life pleasant for every one. For example, it's neighborly to keep calls brief, answer promptly, and allow a little time between calls in a series. . . . This friendly spirit is especially helpful these days—when, with many kinds of telephone equipment still hard to get, party line service is our best way to provide the most telephones to the most people.

teacher of mathematics at the Frank A. Day Junior High School. He has long been interested in the Boy Scout movement and has also served as Associate Director of the summer Day Camp run by the Y. M. C. A. From his wide experience with youth, he is well-equipped to stimulate and vitalize this most important part of the Red Cross program.

Further word comes that beginning September first, Mrs. James Dunlop will serve the Newton Chapter in the capacity of Junior Red Cross Director. Mrs. Dunlop also has taught in the Newton schools both as a full-time and substitute teacher and has contributed actively to many community projects including both local and state woman's club work. She has served for over 17 years as secretary of the Newton Red Cross. Combining as she does a familiarity with Red Cross policies and with the procedures of the Newton schools, Mrs. Dunlop will be helpful in the extreme in promoting an expanding program.

In line with the Junior Red Cross intention to become more active than ever before, an Inter-school Council is being organized at the Junior High School level. To this group, students from public, private and parochial schools have been invited to serve as delegates. The purpose of the Council is to familiarize a selected group of boys and girls with the principles and workings of Red Cross, and through them to spread to the others a true interpretation of the Red Cross spirit of service. Regular Meetings of the Council will be held.

Delegates to the Inter-School Council will attend a Red Cross camp from September third through the sixth at Camp Mary Day, the Girl Scout Camp in Cohasset. About twenty boys and girls will learn, through the chairmen of various services, details of the Water Safety program, Nutrition, First Aid and Home Nursing. An over-all picture of Volunteer Special Services will be presented, and movies of many phases of Red Cross will be shown. Such usual camp features as swimming, sports and a cook-out will be part of the program.

In attendance will be Mr. Joseph E. Graham, Assistant Director of Junior Red Cross of the North Atlantic Area. Newton's Junior Red Cross has produced a fine record of achievement over the past few years under the most able leadership of Miss Jane Wyman who has recently resigned. Quantities of favors, prizes and gifts have been completed, packed and sent to service men, veterans in hospitals, and children overseas. It was under Miss Wyman's guidance that the attractive Junior headquarters was decorated.

Here is a fine example of co-operation between industry and Red Cross. The story further points up the urgent need for citizens everywhere to increase their support of the National Red Cross blood program. When the State Bank is kept fully supplied at all times by an unceasing stream of donors of all types, such situations will no longer assume the proportions of an emergency.

**NEWTON FIRE DEPARTMENT****FIRE PREVENTION SERVICE**

Electrical appliances have supplanted numerous old fashioned methods of housekeeping. While they have made much work easier, it is still well to remember that they carry with them a potential fire hazard if they are not kept in proper condition.

The fuse in all electrical systems is the safety valve. It is a device which is constructed to allow a definite amount of electrical current to flow through it at a stipulated rate. When this rate is exceeded the safety strip fuses or blows thus stopping the flow of current. By having this take place it safeguards the building by not allowing the electric wires carrying energy through the buildings to heat up and start a fire in some unsuspected location. This is the real reason the correct amperage fuses should be used at all times. In most homes 15 amperage fuses are of ample size. For your own safety never substitute a lower amperage fuse with a higher amperage fuse or place any type of material in back of a fuse to allow the current to pass. To do this may mean a possible fire.

**LESS A BIG ALLOWANCE FOR THE OLD TIRE OFF YOUR CAR**

**B. F. Goodrich Silvertowns that outwear prewar tires . . . now at less than prewar prices!**

We have a big market for sound used tires. On your car, it is impossible to detect the exact condition of a tire. But we have the experience and equipment to examine them thoroughly, to detect flaws and to select casings suitable for repairing, recapping or reconditioning. This knowledge is extra money in your pocket, because we can give you a bigger allowance if your tires can be made safe for further use.

And this allowance comes off the already lower-than-prewar price of most popular-sized B. F. Goodrich Silvertowns that outwear prewar tires. This new tire has a wider tread that runs flush-to-the-road, gives greater road contact, firmer footing, more even wear, more road grip. Finer, sturdier cords and more of them give the tire greater strength and suppleness to resist the road pounding of high speeds.

So don't be satisfied with less than the best when the tire that outwears prewar tires costs so little.

### College of Sacred Heart Opens Second Year September 10

The College of the Sacred Heart, Centre street, Newton, operated by the Religious of the Sacred Heart, will open on Wednesday, Sept. 10, for its second year of operation.

Approximately 40 freshmen who attended the college last year are expected to return for the sophomore year, and 40 more students will be accepted as first-year students.

The college occupies the building and grounds of the old Schrafft estate. Ground was broken on July 16 where a new building will be erected to house dormitories and classrooms. The building will be ready in September, 1948, and until then St. Joseph's Hall is being used as a dormitory.

Rev. Mother Eleanor F. Kenney is president of the college. The Country Day School of the Sacred Heart, next door to the college, will open on Wednesday, Sept. 17, with approximately 200 students.
